

# RASER'S ENVOY VISITS THE CZAR

Prince Henry's Appearance at St. Petersburg Creates Sensation—Closer Alliance Between Germany and Russia.

(By the Associated Press.) ST. PETERSBURG, April 4.—Afternoon—Prince and Princess Henry of Prussia arrived at Tsarskoe-Selo this morning.

Attempts to give a political character to Prince Henry's visit and to connect it with the situation created by Emperor William's speech were ridiculed at the German Embassy, it being explained that the visit of the Princes to the sister, the Empress and the Grand-duchess Sergius during the latter's period of mourning, was announced before Emperor William left Germany.

The idea of an acute crisis in German-French relations was scouted at the German Embassy.

However, the visit has created a sensation, and the people take their own view of it, not a few predicting even closer relations between Germany and Russia than now exist.

Princess Henry will remain for some time at Tsarskoe-Selo, but the Prince will return to Berlin in a few days.

The Novoe Vremya, discussing the relative advantages of an Anglo-Russian alliance, finds the latter probably easier of accomplishment and possibly more advantageous to Russia on account of Germany's growing importance in the Near East.

140,000 New Troops Off.

War Minister Sakoff in an interview to-day declares that the reports of Russia countermanding orders for war material abroad are baseless and grow out of the declaration of foreign officers with which the War Office and Admiralty have been swamped.

He insists that there has been no relaxation in the preparations to continue the war, but says there will be no new mobilization at present, explaining as stated in these despatches, that 140,000 troops of the last mobilization have already started for the front, and that, instead of mobilizing new troops, these will be followed by a portion of this year's conscripts.

Gen. Sakoff denied emphatically that he is intrigued against Gen. Kuropatkin, affirming that he is the most loyal support. At the same time in discussing the battle of Mukden he declared that Russia is in a position to defeat the Japanese, forcing the reluctant conclusion that the Russian generalship is superior to the Japanese.

Aid from Germany?

In denying the popular impression that a large proportion of Army Reserve men were sent to the front, Sakoff made the important admission that Reserve men were only sent in the early stages of the war, "before we had ascertained from Europe, which is interpreted as a confession that our arrangement was made with Germany for covering the frontier of Poland."

# ANOTHER ATTEMPT TO KILL TREPOFF.

ST. PETERSBURG, April 4.—It is reported that another attempt on the life of Governor-General Trepoft was foiled last night.

# NIXON'S AUTO BOAT AT AZORES

New Craft, Built as Suspected for the Russian Government, Now Making Her Way to Destination.

PONTA DELGADA, Azore Islands, April 4.—The American gasoline automobile boat Gregory has arrived here. She will proceed to-morrow for Gibraltar and France.

The Gregory, which was built by Lewis Nixon, is ninety feet long, is of steel and has two 800-horse power motors. The vessel started from New York Jan. 5 to make a trip to Europe by the southern route.

When a few days out, however, she encountered very bad weather during which one of her motors was disabled, and was compelled to put into Greenport, L. I. She subsequently resumed her voyage and reached Hamilton, Bermuda, Feb. 16 in good shape, although she encountered equally weather.

After leaving Hamilton for Gibraltar the Gregory was compelled to put back to Bermuda, having become disabled. After effecting repairs she started again.

It has repeatedly been asserted that the Gregory was built for the Russian Government, but this has not as frequently been denied by those interested in the boat, who insist that she is Mr. Nixon's private yacht and that she is going to the Mediterranean at the present time for the purpose of winning the prize of \$10,000 offered by a European enthusiast for the first motor boat to cross under her own power.

Later Mr. Nixon will cruise in the Mediterranean on board the Gregory.

# BOOM IN BUILDING IS ABOUT TO START

Conferences To-Day and To-Night Are Expected to Bring Permanent Peace Between the Employers and Employees—Start Operation.

The greatest building boom New York has ever experienced awaits the favorable result of two important labor conferences called for to-day.

The first is in session at the Building Trades Club, No. 123 Broadway, and will, it is confidently believed, unite all the carpenters in the city in the Brotherhood of Carpenters under a working agreement with the Building Trades Employers' Association. The second conference is to be held to-night at the Building Trades Employers' Association, and will, it is confidently believed, reach all that remains to make it active in indorsement. The other is the question of the right of union men to strike on jobs on which non-union men are employed. This is the open-shop question, but it has not the formidable front it reared a year ago and both sides are disposed to be conciliatory.

Of More Than Local Interest.

Paul Starrett, of the Starrett-Thompson Construction Company, and the leaders in the Building Trades Employers' Association, were instrumental in calling the important carpenters' conference which went into session this afternoon. The questions under consideration are of more than local origin, although they are of local origin.

When the Building Trades Employers' Association looked out the trades a year ago it inaugurated a policy of forming its own unions of men, who were willing to sign the compulsory arbitration agreement. Brotherhood of Carpenters, with a membership of 5,500 men, fought this project bitterly. Their union was finally split. Some 3,500 men seceded and joined the employers' union, while 2,000 remained faithful to the old Brotherhood and continued their organization.

This 2,000 had the support of the Brotherhood of Carpenters throughout the country, and New York builders with jobs in other cities found that they could not get carpenters to work for them. The New York plan of forming an opposition union and breaking up the local Brotherhood organization was not practicable outside of New York, and the builders were forced to come to terms, which have about been agreed upon.

National Officers Here.

W. S. Huser, National President of the Brotherhood of Carpenters, and William Schardt, President of the National Executive Committee of that organization, reached New York last night and represent the national body in the conference. Lewis Huser represents the employers, President Webb the union of 3,500 men formed by the em-

# WILL REOPEN PARK ENTRANCES

Pallas Adopts Evening World's Suggestion—The Two Gates Closed to Vehicles Will Be Put Into Use Again.

The Evening World's suggestion that the Central Park entrances at Seventh avenue and at Sixty-sixth street and Eighth avenue be widened so they might be used again by drivers as well as equestrians is being carried into effect to-day by Commissioner Pallas.

The entrances will be divided by railings, making a division for equestrians and one for vehicles.

Last fall the drivers of New York were set by the ease when policemen one day held them up at the entrances
